

Verification Statement

Verification Standard ISO 14064-3:2019

Inventory Standard ISO 14064-1:2018

Report No. CN261MOV 001

Statement Holder: **Zhejiang Jinko Energy Storage Co., Ltd.**
No. 8 Xiangxin Road, Huangwan Town, Haining City, Jiaxing City, Zhejiang Province, China

Verification Method: Verification Body: TÜV Rheinland (Shanghai) Co., Ltd., China
– Document review, on-site verification, remote verification

Verification Scope: Based on the information we have received and evaluated that:

In accordance with **ISO 14064-1:2018**,

- this **Jinko Energy Storage Carbon Accounting System V1.0** primarily achieves the following major functionalities through inputs and outputs:
 - GHG inventory boundaries
 - Organizational boundaries
 - Reporting boundaries
 - Quantification of GHG emissions and removals
 - Identification of GHG source and sinks
 - Selection of quantification approach
 - Calculation of GHG emissions and removals
 - Base-year GHG inventory
 - Mitigation activities
 - GHG emission reduction and removal enhancement initiatives
 - GHG emission reduction or removal enhancement projects
 - GHG emission reduction or removal enhancement targets
 - GHG inventory quality management
 - GHG information management
 - Document retention and record keeping
 - Assessing uncertainty
 - GHG reporting
- Types of GHGs included: CO₂, CH₄, N₂O, HFCs, PFCs, SF₆ and NF₃.
- Global Warming Potential (GWP) adopted: IPCC Sixth Assessment Report (AR6).

Level of Assurance: Reasonable Level

Materiality: 5%

Validity: This report only reviews the compliance of the functions of **Jinko Energy Storage Carbon Accounting System V1.0** with standards, and does not assume any responsibility for verifying the data and information contained in the Carbon Footprint Management Tool.
